

Indoor Challenge

copyright by Lizard die Outdoorakademie

Can your team hold all the strings in their hands? Can they stay on the carpet, even when things get tight and still keep the necessary balance?

How good is your team?

We come to you in your seminar room and challenge you to complete the team exercises "Beam", "Carpet" and "Pipe" against the clock. It takes a joint strategy, good communication, creativity and team spirit to succeed.

Afterwards in a feedback talk, we analyze the approach of the team and work together with you to find their strengths and weaknesses.

Show what your team can do!
